Short description of the initiative

The Bi-weekly Table for Monitoring European Matters

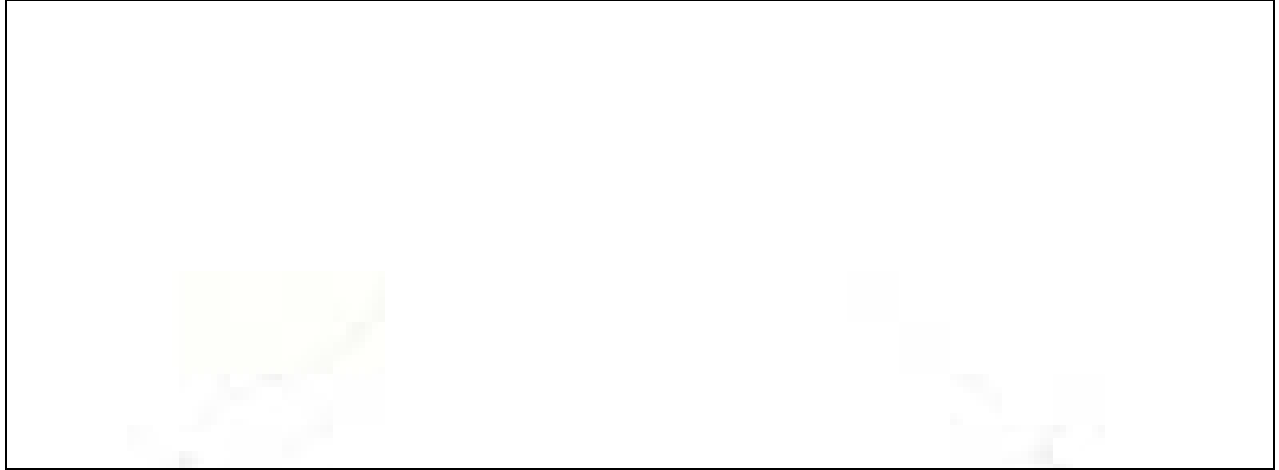

This table includes legislative proposals subject to the subsidiarity monitoring process, the European Commission's consultations, information on European current affairs and a timetable for future meetings of the Council of Ministers.

This table was created in 2010. Nevertheless, it is included in the European initiatives taken by our Assembly as it is a useful tool for our Members to follow up on European issues. Members receive this table every two weeks on the eve of each plenary session.

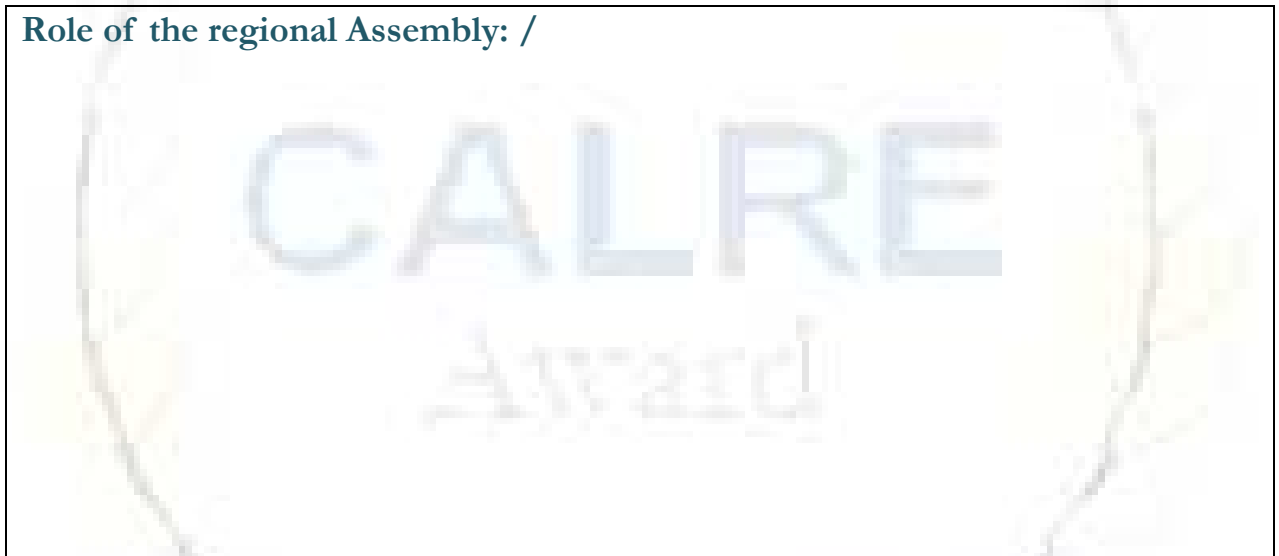

You will find an example of a table attached to this form.
