

July 20, 2018

Dear President,

As you well know, at the Plenary Assembly of the Conference of European Regional Legislative Assemblies (CALRE), held last November in Seville, I was elected Coordinator of the Working Group "Strategy for Sustainable Development in the European Regions".

The objective of this Working Group is to develop guidelines based on the analysis of good practices and the EU regulatory framework, on the response that is currently being made to sustainability in the development of the regions of the EU itself.

Among the activities envisaged by the aforementioned Working Group are, among others, various meetings with the Presidents of those Regional Parliaments that are part of said Working Group, as well as with the entities and organizations that give their vision and testimony of the phenomenon in question. The assistants will have the opportunity to know the cards that we have elaborated to locate each of the Sustainable Development Goals in the Canary Islands (we attach an example of a file in the complementary documentation).

Consequently, we would ask you to indicate if it is in your interest to participate in the meeting of the Sustainable Development Working Group scheduled for October 18 and 19, 2018, and notify us as soon as possible, attaching the form of registration duly completed.

While waiting for your instructions, receive a cordial greeting.

A handwritten signature in blue ink, reading 'Aline Dainoff', is positioned at the bottom center of the page.
