

CALRE

Conference of European
Regional Legislative Assemblies

- **Roots** symbolise countries and their regions
- **Leaves** represent people
- The **trunk** symbolises CALRE
- The **soil** symbolises the European Union
- The **nutrients** of the soil represent the EU's financial, human, technological and territorial resources

In **CALRE Tree**, the roots support and cooperate to take the nutrients offered by the soil to the leaves through the trunk, thus making it stronger and more resistant
